10. Appointment of Directors

As at the date of this Charter and in accordance with the provisions of the Articles of Association, it is expected that one third of the Directors (other than the Managing Director) would retire at the next annual general meeting. At this juncture the Company expects that these retiring Directors will stand for re-election.

The Board currently schedules a minimum of four meetings per year. In addition, the Board meets whenever necessary to deal with specific matters needing attention between the scheduled meetings. Extraordinary meetings take place at such other times as may be necessary to address any specific significant matters that may arise.

The agenda for meetings is prepared by the Company Secretary in conjunction with the Chairman of the Board, with periodic input from the Board. Board papers are distributed to Directors in advance of scheduled meetings.

Each member of the Board is committed to spending sufficient time to enable them to carry out their duties as a Director.

It is recognised and accepted that Board members may also concurrently serve on other boards, either in an executive or non-executive capacity.

Due to the current size of the Company and its level of activity, the Board is responsible for the evaluation of its performance and the performance of individual Directors. This internal review is to be conducted on an annual basis and if deemed necessary this internal review will be facilitated by an independent third party.

12. Independence of Board Members

The Board will regularly assess the independence of each of the Non-Executive Directors based on the interests and associations disclosed by them, in line with the Principles and Recommendations.

Currently, three of the Non-Executive Directors are deemed to be independent.

Principle and Recommendation 2.4 states that a majority of the Board should be Independent Directors. In assessing the makeup of the Board, the Company aims for its Directors to be independent in thought and judgement, as well as expecting the Directors to add value to the Company. This board structure will be reviewed at the appropriate stages of the Company's development.

12.1. Assessing the independence of Directors - ASX guidelines

When determining the independent status of a Director the Board should consider whether the Director:

- (a) is, or has been, employed in an executive capacity by the listed entity or any of its child entities and there has not been a period of at least three years between ceasing such employment and serving on the board;
- (b) is, or has within the last three years been, a partner, Director or senior employee of a provider of material professional services to the listed entity or any of its child entities;
- (c) is, or has been within the last three years, in a material business relationship (eg as a supplier or customer) with the listed entity or any of its child entities, or an officer of, or otherwise associated with, someone with such a relationship;

Corporate Governance Plan

- (d) is a substantial security holder of the listed entity or an officer of, or otherwise associated with, a substantial security holder of the entity;
- (e) has a material contractual relationship with the listed entity or its child entities other than as a Director;
- (f) has close family ties with any person who falls within any of the categories described above; or
- (g) has been a Director of the listed entity for such a period that his or her independence may have been compromised.

If the response is 'yes' in regards to any of the above, the Non-Executive Director would generally not be considered to be 'independent'.

In each case, the materiality of the interest, position, association or relationship needs to be assessed to determine whether it might interfere, or might reasonably be seen to interfere, with the Director's capacity to bring an independent judgement to bear on issues before the board and to act in the best interests of the entity and its security holders generally.

9.2 Annual Report Disclosure

The Board may decide that it considers a Director to be independent, notwithstanding the existence of relationships listed above. If the Board does so decide, it will state its reasons in the annual report for making such a decision.

If the independent status of a Director is lost, this will be disclosed to the market immediately.

The Board must ensure that each annual report of the Company discloses:

- (a) in the corporate governance section, the names of the Directors who are considered by the Board to be independent;
- (b) the reasons for considering a Director to be independent;
- (c) the reasons for considering a Director to be independent despite the existence of the relationships set out above; and
- (d) the period of office of each Director.

13. Board processes and evaluation of performance

Directors have the right of access to Company employees, advisers and records. In relation to their duties and responsibilities, Directors have the right to seek independent professional advice at the Company's expense provided that before the advice is obtained, the Director discusses the requirement for the advice with the Chairman of the Board. Any advice so received must be made available to all other Directors.

Where the Chairman of the Board wishes to seek independent advice, she or he must make a formal request to the Board. Any advice so received must be made available to all other Directors. The Company has entered into Confidentiality, Indemnity, Insurance and Access Deeds with each Director giving them a right of access to all documents that were presented to meetings of the Board or to any committee of the Board or otherwise made available to the Director whilst in office. This right continues for a term of seven years after ceasing to be a Director or such longer period as is necessary to determine relevant legal proceedings that commenced during that term.

14. Remuneration of Non-Executive Directors

The fees and emoluments paid to Directors will be set by the Nomination and Remuneration Committee and approved in advance by shareholders.

The maximum aggregate remuneration of Non-Executive Directors is A\$500,000 per annum.

14.1. Access to Company information and confidentiality

All Directors have the right of access to all relevant Company books. In accordance with legal requirements and agreed ethical standards, Directors and senior executives of eCargo have agreed to keep confidential information received in the course of the exercise of their duties and will not disclose non-public information except where disclosure is authorised or legally mandated.

14.2. Operation of the Board

The Board operates as a whole in dealing with the affairs of the Company. It meets formally periodically to review the Company's performance, to receive reports and act on any recommendations from its senior executives. Other Board meetings are held when necessary to deal with other matters that may arise.

3. Adherence to the Law

3.1. Responsibilities of Directors

Directors will acquaint themselves with obligations imposed on them and the Company by the Companies Ordinance. They will also familiarise themselves with other documents prepared by eCargo to meet corporate governance requirements.

The more important legal obligations are summarised below:

- (a) Directors will act honestly, and exercise reasonable skill, care and diligence at all times in the performance of their functions;
- (b) a Director or former Director will not make improper use of information acquired by virtue of position;
- (c) a Director will not make improper use of position to gain a direct or indirect advantage for self or any other person; and
- (d) Directors have a fiduciary duty to the Company and a duty to act with loyalty and in good faith.

3.2. Responsibilities of Employees

Employees should undertake at all times to comply with or observe all applicable laws and regulations.

An Employee should not take any action which they know or should reasonably know violates any applicable law or regulation. Where operating rules are laid down they should be followed. The correct Company forms, which have been prepared with legal requirements in mind, should also be used.

4. Responsibilities to stakeholders

The Company strives to be a good corporate citizen.

Accordingly, the standards of personal behaviour applicable to Employees are as follows:

- (a) Employees must have an understanding of the Company's business and the environment in which it operates, and stay informed of all relevant activities affecting the Company and the community in which it operates;
- (b) Employees shall treat each other and parties who have interest in or dealings with the Company with professionalism, courtesy and respect. They shall work cooperatively with fellow Employees towards agreed goals, whilst accepting the obligation to supervise or be supervised in the discharge of their duties. Employees shall deal fairly with all parties who have legitimate business with the Company;
- (c) Directors and Officers are obliged to exercise due judgement in their decision making process and will not attempt to improperly influence their colleagues in issues or matters where independent judgement is expected of the other person; and
- (d) Directors and Officers who may communicate publicly (through lectures or papers) on material related to the Company's affairs will in general convey views agreed by the Board. If material beyond this is made public, it should be clearly identified as the view of the individual. Any views attributed publicly to the Board or the Company

Corporate Governance Plan

should be cleared in advance — preferably with the full Board, but at least with the Chairman.

5. Conflicts of Interest

All Employees owe their primary business loyalty to the Company. They must not participate in any decision, by or on behalf of the Company, which may affect any private business in which they have an interest, unless they have disclosed the nature and extent of that interest to a relevant senior manager in the Company.

An Employee must obtain the consent of the CEO through the Company Secretary before accepting a position as a Director or member of the board of an external company or organisation. The Employee, who has received such approval, shall advise the Company Secretary promptly of any changes to relevant interests such as directorships, partnerships and holdings in securities. The Company Secretary will inform all Board members and the regulatory authorities, if required. Directors shall normally be advised at the next meeting, but more urgently if appropriate to the circumstances. Interests are confirmed annually in writing to the Company Secretary prior to inclusion in the Directors' Report.

An Employee may, generally, not approve or administer contracts or other business arrangements between the Company and a member of the Employee's immediate family or with a company, firm, or individual employing a member of the Employee's immediate family in activities under the Employee's administration. In the particular case where the Board may decide that an Employee (who is also a Director) may properly supply goods or services on commercially acceptable terms to the Company, details will be provided in the annual Directors' Report and Notes to the Financial Statements.

Employees must avoid acquiring any business interests or participate in any business activity outside the Company which would tend to:

- create an excessive demand upon the Employee's time and attention or create any distraction during working hours; or
- create a conflict of interest, that is, an obligation, interest or distraction which would interfere with the independent exercise of judgement in the Company's best interest.

Employees may not use other Employees, facilities, equipment or supplies for personal benefit contrary to the Company's policies and procedures.

6. Ethical Standards

eCargo is committed to fostering a climate of ethical behaviour and business practice. Key issues which Employees must consider when making any decision on the Company's behalf are:

- (a) Is it the right thing to do?
- (b) Is the decision or contemplated business conduct lawful?
- (c) Is it consistent with this Policy?
- (d) What will be the outcome for the Company, shareholders, colleagues and other stakeholders?
- (e) Does a conflict of interest arise?
- (f) Is the decision one that would stand public examination and scrutiny?

Corporate Governance Plan

The Company encourages staff to report in good faith suspected unlawful/unethical behaviour.

Any Employee who is uncertain as to whether an act or omission constitutes unlawful or unethical behaviour or who wishes to make a report should contact the Company Secretary directly.

The Company Secretary will then determine what action, if any, should be taken.

The Company Secretary will treat as confidential all such queries and reports except where action is to be taken. In which case, the Company Secretary shall seek to maintain the identity of the Employee confidential, unless the circumstances demand otherwise.

7. Fair Dealing

Employees shall not use their positions within the Company to seek personal gain from those doing business or seeking to do business with the Company, nor accept such gain if offered.

Employees must not engage in any act that could be interpreted as seeking or receiving a bribe, secret commission or questionable payment. Decisions made by an Employee in the course of work must be objective and based solely upon the best interest of the Company. They should never be influenced by any consideration of personal gain or gain to any personal associate (e.g. friend or relative). Except as noted below, Employees may neither seek nor accept gifts, payments, services, fees, pleasure or vacation trips or accommodation, or loan (except normal loans from regular lenders, on conventional terms) from any person, organisation or group that does business or is seeking to do business with the Company or any of its affiliates, or from a competitor of the Company or any of its affiliates.

An Employee may not accept gifts, services or entertainment from individuals or companies doing or seeking to do business with the Company, unless the transaction meets all of the following requirements:

- (a) is in keeping with good business ethics;
- (b) is customary and proper under the circumstances and gives no appearance of impropriety;
- (c) serves a valid business purpose;
- (d) does not impose any sense of obligation on the recipient to the donor;
- (e) does not result in any kind of special or favoured treatment of the donor;
- (f) cannot be viewed as extravagant, excessive or too frequent considering all the circumstances;
- (g) does not involve cash payments, gift certificates, credit arrangements of any kind or any item having a value of more than HK\$1,000;
- (h) does not involve materials, services, repairs or improvements at no cost or at unreasonably low prices; and
- (i) there is no effort made to conceal the full facts by either the recipient or the donor.

8. Confidentiality

It is a policy of the Company to honestly and openly provide information to those who have a legitimate interest in its operations. In addition to formal reports to regulatory authorities and

Corporate Governance Plan

reports to the public and shareholders required by statute, the Company may provide extensive information on its activities by way of a variety of publications and through continuing working relations with news media, financial analysts and others. The extent, timing and form of such public disclosure are matters for senior management. Apart from concern for the privacy of the Employees, the Company also operates in a competitive business environment. Consequently, it would be inappropriate for the Company to disclose information, which if published, might impair its own effectiveness and competitiveness.

Accordingly, Company documents such as circulars, manuals, records and internal communications materials, especially materials marked "Confidential", must never be shown to outsiders without proper authorisation. Care should be exercised in conversations about the Company with outsiders or with fellow Employee in public places.

The obligation of Employees to safeguard the privacy of fellow Employees, to protect the confidentiality of the Company's own affairs, and to protect the Company's proprietary interests continues with equal force if the Employee leaves the service of the Company.

In conversations with customers or other Employees and when on the telephone, due care must be taken to prevent outsiders from overhearing confidential personal information.

Information should not be divulged over the telephone unless the identity of the caller and his or her right to receive the information are definitely established. Particular care should also be taken in answering enquiries and data given must be limited to that permitted by standard Company practice. Appropriate legal advice should be obtained where doubt exists.

The same considerations apply to the privacy rights of Employees and similar due care to avoid breaching these rights must be exercised by those Employees who, by reason of their position, may have knowledge of another Employee's private affairs.

9. Inside information and Securities Trading

Inside information about the Company's affairs or those of customers shall not be used by an Employee for their own gain or that of others.

Employees are often in possession of information (commonly referred to as "inside" information) which is not publicly available and which may have an impact on the price of the Company's securities. Employees must not disclose such information nor use such information for personal gain or for the advantage of others, such as friends or relatives. For example, trading in the Company's securities or advising others to do so on the basis of such special knowledge may also result in violation of insider trading laws and lead to criminal penalties.

Employees are required to comply with the Company's Securities Trading Policy at all times.

10. Administration

It is recognised that an Employee may have questions concerning whether certain of their planned or actual activities constitute departures from the guidelines of this Code. Such questions should be referred in writing to the CEO through the Company Secretary.

It is also recognised that circumstances may arise where compliance with the Code may be achieved without strict adherence to the guidelines and where such strict adherence would be unreasonable or result in undue hardship for the Employee. In such circumstances, the pertinent facts of the case should be submitted in writing to the CEO through the Company Secretary.

11. Publication

A copy of this Code of Conduct is available at www.ecargo.com.

Annexure 3 Securities Trading Policy

Adopted by Board on 18 September 2014

1. Introduction

These guidelines set out the policy on the sale and purchase of securities in the Company by its Directors and Employees.

Directors and Employees are encouraged to be long-term holders of the Company's securities. However, it is important that care is taken in the timing of any purchase or sale of such Company securities to avoid "insider trading".

Accordingly the Board has adopted this Policy on dealing in the Company's securities by Directors and Employees. The objectives of this Policy are to:

- (a) minimise the risk of Directors and Employees contravening the laws against insider trading;
- (b) ensure the Company is able to meet its reporting obligations under the Listing Rules; and
- (c) increase transparency with respect to trading in the Company's securities by Directors and Employees.

To achieve these objectives, Directors and Employees should consider this Policy to be binding on them in the absence of a specific exemption by the Board.

In summary, this Policy prohibits dealing in the Company's securities when those persons possess unpublished market price sensitive information. If a Director or Employee is uncertain of the status of unpublished information, he should discuss it with the Chairman before trading occurs.

Directors must also notify the Company Secretary of any trade in the Company's securities within three days of such trade occurring so that the Company Secretary can comply with the Listing Rule 3.19A.2 requirement to notify the ASX of any change in a notifiable interest held by a Director.

Any non-compliance with this Policy will be regarded as serious misconduct which may entitle the Company to take corrective disciplinary action.

2. Definitions

General terms and abbreviations used in this Policy have the following meaning set out below.

Board	the board of Directors of eCargo

Listing Rules	the Listing Rules of the ASX
Policy	this securities trading policy

3. What types of transactions are covered by this Policy?

This Policy applies to both the sale and purchase of any securities of the Company and its subsidiaries on issue from time to time.

The definition of "securities" in the Corporations Act is very broad. Securities include:

- (a) ordinary shares;
- (b) preference shares;
- (c) options or performance rights;
- (d) debentures; and
- (e) convertible notes.

For the purposes of this Policy, the term "securities" also extends to financial products issued or created over or in respect of securities issued by the Company (for example, warrants and other derivative products), whether or not the financial products are created by the Company or by third parties.

4. What is insider trading?

4.1. Prohibition

Section 1043A (of Part 7.10, Division 3) of the Corporations Act makes it an offence for a person in possession of information that is not generally available but which, if generally available, might materially impact the price or value of Company securities to:

- (a) trade in (i.e. apply for, acquire or dispose of, or enter into an agreement to do any of these things); or

Corporate Governance Plan

- (b) procure another person to trade in, Company securities (collectively referred to as deal in Company securities).

Contravention of section 1043A of the Corporations Act is a criminal offence and may also result in civil liability.

4.2. Examples

To illustrate the prohibition described above, the following are possible examples of price sensitive information which, if made available to the market, may be likely to affect materially the price of the Company's securities:

- (a) a material acquisition, joint venture, realisation or disposal of assets;
- (b) threat of material litigation against the Company;
- (c) the Company's sales and profit results materially exceeding (or falling short of) the market's expectations;
- (d) a material change in debt, liquidity or cash flow;
- (e) a significant new development proposal i.e., new product or technology;
- (f) the granting (or loss) of a major contract;
- (g) management or business restructuring proposal;
- (h) proposed changes in the capital structure, capital returns and buy backs of financial products;
- (i) proposed dividends and share issues;
- (j) changes to the Board; and
- (k) any information required to be announced to the market pursuant to Listing Rule 3.1 (the Continuous Disclosure rule).

4.3. Dealing through third parties

It is also an offence to tip the information to another person with the knowledge that the person could deal in Company securities. A person does not need to be a Director or Employee to be guilty of insider trading in relation to securities in the Company. Accordingly, the effect of section 1043A of the Corporations Act cannot be avoided by simply getting another person to deal on your behalf. The prohibition extends to dealings by Directors and Employees through nominees, agents or other associates, such as family members, family trusts and family companies (referred to as **Associates** in this Policy).

4.4. Information however obtained

Trading is prohibited at any time if the person possesses inside information. It does not matter how or where the person obtains the information – it does not have to be obtained from the Company to constitute inside information. This means that section 1043A of the Corporations Act will apply to any Director or Employee who acquires inside information in relation to Company securities, no matter in which capacity and is prohibited from dealing in Company securities.

4.5. Employee share schemes

The prohibition does not apply to acquisitions of shares or options by Employees made under employee share or option schemes, nor does it apply to the acquisition of shares as a result

Corporate Governance Plan

of the exercise of options under an employee option scheme. However, the prohibition does apply to the sale of shares acquired under an employee share scheme and also to the sale of shares acquired following the exercise of an option granted under an employee option scheme.

5. Guidelines for trading in the Company's securities

5.1. General Rule

Directors or Employees must not buy or sell Company securities except for during any of the following periods:

- (a) 30 calendar days from the date of the Company's Annual General Meeting;
- (b) 30 calendar days from the release of the quarterly results announcement to the ASX;
- (c) 30 calendar days from the release of the half yearly results announcement to the ASX;
- (d) 30 calendar days from the release of the preliminary final results announcement to the ASX; or
- (e) 30 calendar days from the release of a disclosure document offering securities in the Company,

All periods other than as detailed above are referred to as the "**Closed Period**".

For the avoidance of doubt, during the Closed Period, Directors and Employees must not deal in financial products issued or created over or in respect of the Company's securities.

The Closed Period may be extended, shortened or another Closed Period may be introduced at any time by direction of the Board. Notice of such changes will be specified to Employees by email and to Directors by email and/or facsimile. Changes to the Closed Period are effective immediately upon the giving of such notice. Where an Employee does not have email access, it is the manager's responsibility to inform such Employee.

If a Director or Employee is in possession of price sensitive information which is not generally available to the market, then he or she must not deal in the Company's securities at **any** time.

5.2. No short-term trading in the Company's securities

Directors and Employees should never engage in short-term trading of the Company's securities except for the exercise of options where the shares will be sold shortly thereafter.

5.3. Securities in other companies

Buying and selling securities of other companies with which the Company may be dealing is prohibited where an individual possesses information which is not generally available to the market and is 'price sensitive'. For example, where an individual is aware that the Company is about to sign a major agreement with another company, they should not buy securities in either the Company or the other company.

5.4. Exceptions

Directors and Employees may at any time:

- (a) acquire ordinary shares in the Company by conversion of securities giving a right of conversion to ordinary shares;
- (b) acquire Company securities under a bonus issue made to all holders of securities of the same class;

Corporate Governance Plan

- (c) acquire Company securities under a dividend reinvestment, or top-up plan that is available to all holders or securities of the same class;
- (d) acquire, or agree to acquire or exercise options under a Company share option plan;
- (e) withdraw ordinary shares in the Company held on behalf of the Employee in an Employee share plan where the withdrawal is permitted by the rules of that plan;
- (f) acquire ordinary shares in the Company as a result of the exercise of options held under an Employee option scheme;
- (g) transfer securities of the Company already held into a superannuation fund or other saving scheme in which the restricted person is a beneficiary;
- (h) make an investment in, or trade in units of, a fund or other scheme (other than a scheme only investing in the securities of the Company) where the assets of the fund or other scheme are invested at the discretion of a third party;
- (i) where a restricted person is a trustee, trade in the securities of the Company by that trust provided the restricted person is not a beneficiary of the trust and any decision to trade during a prohibited period is taken by the other trustees or by the investment managers independently of the restricted person;
- (j) undertake to accept, or accept, a takeover offer;
- (k) trade under an offer or invitation made to all or most of the security holders, such as, a rights issue, a security purchase plan, a dividend or distribution reinvestment plan and an equal access buy-back, where the plan that determines the timing and structure of the offer has been approved by the Board. This includes decisions relating to whether or not to take up the entitlements and the sale of entitlements required to provide for the take up of the balance of entitlements under a renounceable pro rata issue;
- (l) dispose of securities of the Company resulting from a secured lender exercising their rights, for example, under a margin lending arrangement;
- (m) exercise (but not sell securities following exercise) an option or a right under an employee incentive scheme, or convert a convertible security, where the final date for the exercise of the option or right, or the conversion of the security, falls during a prohibited period and the Company has been in an exceptionally long prohibited period or the Company has had a number of consecutive prohibited periods and the restricted person could not reasonably have been expected to exercise it at a time when free to do so; or
- (n) trade under a non-discretionary trading plan for which prior written clearance has been provided in accordance with procedures set out in this Policy.

Where the Company has in place an active Employee share option plan:

- (a) it is not permissible to provide the exercise price of share options by selling the shares acquired on the exercise of these share options unless the sale of those shares occurs during one of the fifteen day periods specified in paragraph 4.1; and
- (b) where the exercise price of options is being provided by a margin loan or other form of lending arrangement then there may be a risk that the Director or Employee may need to sell shares to avoid providing additional capital or security to the lender in the event of a decrease in the value of the shares.

Were this to occur at a time when the Director or Employee possessed inside information then the sale of Company securities would be a breach of insider trading laws, even though the Director or Employee's decision to sell was not influenced by the inside information that the Director or Employee possessed and the Director or Employee may not have made a profit on the sale. Where Company securities are provided to a lender as security by way of mortgage or charge a sale that occurs under that mortgage or charge as a consequence of default would not breach insider trading laws.

5.5. Notification of periods when Directors and Employees can trade

The Company Secretary will endeavour to notify Directors and Employees of the times when they are permitted to buy or sell the Company's securities as set out in paragraph 5.1.

6. Clearance and Notification Requirements

6.1. Clearance Requirements - Directors

Any Director wishing to buy, sell or exercise rights in relation to the Company's securities must obtain the prior written clearance of the Chairman or the Board before doing so; or

If the Chairman wishes to buy, sell or exercise rights in relation to the Company's securities the Chairman must obtain the prior written clearance of the Board before doing so.

6.2. Clearance Requirements – Employees

Any Employee wishing to buy, sell or exercise rights in relation to the Company's securities must obtain the prior written clearance of the CEO or the Company Secretary before doing so.

6.3. Notification

Subsequent to approval obtained in accordance with clause 6.1 and 6.2, any Director or Employee who (or through his or her Associates) buys, sells, or exercises rights in relation to Company securities must notify the Company Secretary in writing of the details of the transaction within five business days of the transaction occurring. This notification obligation operates at all times but does not apply to acquisitions of shares or options by employees made under employee share or option schemes, nor does it apply to the acquisition of shares as a result of the exercise of options under an employee option scheme.

6.4. Approvals to buy or sell securities

All requests to buy or sell securities must include the intended volume of securities to be purchased or sold and an estimated time frame for the sale or purchase.

Copies of written approvals must be forwarded to the Company Secretary prior to the approved purchase or sale transaction.

6.5. Director and Employees sales of securities

Directors and Employees need to be mindful of the market perception associated with any sale of Company securities and possibly the ability of the market to absorb the volume of shares being sold. With this in mind, the management of the sale of any significant volume of Company securities (i.e. a volume that would represent a volume in excess of 10% of the total securities held by the seller prior to the sale, or a volume to be sold that would be in excess of 10% of the average daily traded volume of the shares of the Company on the ASX for the preceding 20 trading days) by a Director, the CEO or other Employees needs to be discussed with the Board and the Company's legal and financial advisers prior to the execution of any sale. These discussions need to be documented in the form of a file note, to be retained by the Company Secretary.

Corporate Governance Plan

6.6. Exemption from Closed Period restrictions due to exceptional circumstance

A Director or Employee who is not in possession of inside information in relation to the Company, may be given prior written clearance by the CEO (or in the case of a Director the Chairman, or in the case of the Chairman two other members of the Board) to sell or otherwise dispose of Company securities during a Closed Period where the person is in severe financial hardship or where there are exceptional circumstances as set out in this Policy.

6.7. Severe Financial Hardship or Exceptional Circumstances

The determination of whether a Director or Employee is in severe financial hardship will be made by the CEO in the case of Employees, the Chairman in the case of a Director, and all other members of the Board in the case of the Chairman.

A financial hardship or exceptional circumstances determination can only be made by examining all of the facts and if necessary obtaining independent verification of the facts from banks, accountants or other like institutions.

6.8. Financial Hardship

A Director or Employee may be in severe financial hardship if they have a pressing financial commitment that cannot be satisfied other than by selling the securities of the Company.

In the interests of an expedient and informed determination by the CEO, Chairman or Board, any application for an exemption allowing the sale of Company securities during a Closed Period based on financial hardship must be made in writing, be accompanied by a statutory declaration stating all of the facts and be accompanied by copies of relevant supporting documentation, including contact details of the person's accountant, bank and other such independent institutions.

Any exemption, if issued, will be in writing and shall contain a specified time period during which the sale of securities can be made.

6.9. Exceptional Circumstances

Exceptional circumstances may apply to the disposal of Company securities by a Director or Employee if the person is required by a court order, a court enforceable undertaking for example in a bona fide family settlement, to transfer or sell securities of the Company or there is some other overriding legal or regulatory requirement to do so.

Any application for an exemption allowing the sale of Company securities during a Closed Period based on exceptional circumstances must be made in writing and be accompanied by relevant court and/or supporting legal documentation.

Any exemption, if issued, will be in writing and shall contain a specified time period during which the sale of securities can be made.

7. ASX notification for Directors

Listing Rule 3.19A requires the Company to notify the ASX within five business days after any dealing in securities of the Company (either personally or through an Associate) which results in a change in the relevant interests of a Director in the securities of the Company. The Company has made arrangements with each Director to ensure that the Director promptly discloses to the Company Secretary all the information required by the ASX after the date of the change and in any event no later than three business days after the change or another time frame which allows for compliance with the Listing Rule obligations.

8. Effect of Compliance with this Policy

Compliance with this Policy is mandatory. Infringement of the insider trading provisions can attract a substantial monetary penalty, imprisonment or both. Compliance with this Policy does not absolve that individual from complying with the law, which must be the overriding consideration when trading in the Company's securities.

Any breach of this Policy will be regarded as serious and will be subject to appropriate sanctions.

9. Contact

If you have any questions regarding this Policy, please contact the Company Secretary.
